

Basic Series

Now in 4 different colours

It sometimes doesn't take much to get the job done.

The new Sessiondesk *Basic Series* brings back the beauty of basic and reduced aesthetics to your studio. With using our exclusive material of extraordinary quality, our *Basic Series* desks complete your production environment, so you can totally concentrate on your work.

The Basic Series is made out of POLIPLIX - a material exclusively produced by Sessiondesk. Its flawless surface is highly durable and contrasts beautifully with the visible wooden elements of the edges and drilling holes. It is available in the 4 colours:

- 60s Brown
- 70s White
- 80s Grey
- 90s Black

Every upper segment provides cable ducts for your convenient cabling. Besides is an adequate ventilation of your outboard gear guaranteed.

The self-explaining architecture of the *Sessiondesk Basic Series* desks makes them easy and fast to build up.

Gustav is the classic recording desk. Its angled side parts provide a perfect access to all installed outboard gear, while your view and sound remain almost unhindered. The table top in the back can be easily adjusted to 3 different levels, to bring your screen into perfectly ergonomic position.

Oktav is the big straight version and provides the installation of an optional keyboard drawer. The table top in the back can also be adjusted in 3 different heights. The width and position of the middle part is furthermore ideal for the installation of a 19" mixer.

Quintav is the most compact desk from the *Basic Series*, but provides the same rack space as *Oktav* and *Gustav*. An optional keyboard drawer is available, making *Quintav* the optimal solution for home recording and songwriting.

All of our *Basic Series* desks provide 18 units of rack space. You can place your speakers directly on the upper shelves.

The Quintav Keyboard Drawer provides space for keyboards up to a size of 1010 x 300 x 130 mm

The Oktav Keyboard Drawer provides space for keyboards up to a size of 1512 x 300 x 130 mm
