

Artnovion product bow595 clone 6f3881961bee40dacd4036a6a1a60c

**Performance**

**Technical Information**

**Features**

Type:  
Hybrid Absorber

Recommended for:  
Studios | Recording rooms

Absorption range:  
250 Hz to 2000 Hz

Purpose:  
Mid-High absorption and diffusion

Available fire rates:  
FG | Furniture Grade

Dimensions:  
Bow 892  
FG | 892x148mm

**Dimensions:**

892x148x107mm

The Bow range is a new design born of the collaboration between Jan Morel and Artnovion.

Bow is an elegant balance between simplicity and futuristic design. Available in 3 sizes, all crafted from premium fabrics and quality wood, filled with high performance acoustic foam. The Bow is available in 3 different sizes.

Combining the 3 different sizes of Bow creates distinct, unique designs and diffusion patterns.

Each Bow has a solid wooden shell, forming a carefully calibrated semi-circular diffuser, with dual lateral closed cavities packed with high performance acoustic foam. The Bow has a further central Helmholtz cavity extending the mid-range frequency absorption, for an overall balanced mid-high frequency hybrid absorber with an outstanding geometric diffusion.

The Bow can be installed on walls or ceilings, hung on screws by means of a discreet imbedded backboard. It can also be installed directly through the front of the panel, concealed behind removable side-foam.

Available in a selection of 10 wood and 10 fabric finishes.
